Closed: Tuesday, December 31st for New Year's Eve

Closed: Wednesday, January 1st for New Year's Day

*** This special event requires registration through autumnmoonhw@outlook.com or by cash in the studio**

NEW for January - LITE Classes indicate our Low Impact Toning Exercise Classes - these classes are Lower Impact Classes.

Aerial Yoga - Experience the weightlessness of aerial yoga, as you use silk hammocks to support your body in this yoga practice. The silks offer support for your balance, and help you find depth and comfort in the poses.

Aerial Yoga - Flow - Combine Aerial Yoga poses together over one month to create a flowing series. The silks offer support through the poses while you lightly challenge your body to flow gently through a series of poses. Suitable for most levels.

Aerial Yoga - Restorative - Experience the support of the hammock in yoga poses that are held for a longer period of time to experience full release of the muscles.

Baby Fit - Strong - Maintain or regain strength during all stages in our Baby-Strong Class. The use of weights, bands or other items may be used, and babies may be used as weights. 30 min class with 15 min social time available after the class.

Barre - This low-impact workout combines high repetition and light weights or resistance with aspects of balance and coordination. Barre is a combination of muscular conditioning, Pilates, Yoga and Mobility.

Bootcamp - If you are looking for a high-intensity workout to get your heart-pumping and muscles working! Appropriate for all-levels, as every exercise is adaptable, but be ready to bring your A-game, and kick-butt attitude as you are put through your paces!

Cardio & Strength - This class will get your heart pumping, and your muscles working as we combine Cardio exercises with Strength exercises to target the whole body in one, effective workout.

Cardio Kickboxing - This class will offer you a high intensity workout, combining cardio kickboxing moves with some bodyweight conditioning to bring your workout to the next level. Low Impact options can be provided when needed.

Chair Fit & Stretch - A great low-impact option for those who have balance and mobility challenges. This class focuses on building functional strength and maintaining balance and range of motion.

Core - Increase your core stability and strength with this Core-focused class. This class will work all the muscles in your torso to keep you balanced, strong and mobile to aid in the functionality of your daily life and activity.

Dance Fit - Enjoy getting fit while grooving to music. Follow the instructor as they lead you through simple to moderate choreographies that are repeated over several weeks so you learn the moves and really give it your own energy and style.

Friday Special - Running Monthly, check our booking calendar for the special themes for each Friday Special Class! It could be throwback aerobics, a specialized genre of dance or anything in between!

Functional Circuit - Get ready for a class that keeps you moving, as this circuit style class combines functional movements and strength to challenge you, no matter what level you are at!

Pelvic Floor Level 1 - Pelvic Floor Health is important for people of all ages! This series focuses on connecting with your Pelvic Floor and Deep Core muscles to support you through different positions. You can take Level 1 as many times as you would like, as it is a great reminder for Pelvic Floor and Core Engagement.

Pelvic Floor Level 2 - Take alongside the 6 week Level 1, or graduate to Level 2 after going through Level 1. Where Level 1 focuses on finding your Pelvic Floor and Deep Core muscles, Level 2 will challenge your engagement by adding some impact exercises and weights.

Pilates - A low-impact core workout, this class will focus on your alignment, balance and stability through the core as your limbs are moving. This class is based on the Classic Mat Pilates and allows you to focus on your core combined with mobility work.

Pilates/Meditation & Relaxation - Start this class with 30 minutes of classic Mat Pilates, and then choose to find a comfortable position either in a hammock or on the floor, and allow yourself to be guided through a meditation. With dim and cozy lighting, and relaxing spa music, this is the perfect relaxation.

Step - Ramp up your cardio game with our aerobic step class! This can be done with or without a step, for those who may need a lower impact option. Follow along as we work through basic to intermediate step combinations.

Strength Intervals - Build your strength with timed intervals of weighted and body weight exercises.

Tabata - Challenge your Cardio and Strength in this class set to the Tabata Timing Protocol of 20 seconds of work followed by 10 seconds rest. This HIIT style class provides a moderate to high intensity workout.

Total Body - Total Body is a concise workout that utilizes bodyweight and equipment to exercise all the main muscle groups of the body. It is appropriate for all levels, as all exercises can be modified or leveled up to match your fitness level.

TRX - TRX is a suspension trainer where one uses hung straps and their body weight against gravity to exercise in a functional way. Train your grip strength, range of motion and core stability from all angles with this workout!

Yoga - Hatha - Hold poses while focusing on the breath, and allowing the body and muscles to relax into each pose. This practice is appropriate for all levels, with modifications, mobility aids and variations being offered to meet the needs of most.

Yoga - Vinyasa Flow - Combine yoga poses together into a flowing series of movements that focus on improving your balance, mobility and strength.

LITE - LITE classes indicate that the listed class is a Lower Impact Toning Exercise Class option. These classes are generally a lower impact class, and can be accessible for most levels.
